ABOUT US

EXPERIENCE YOU CAN COUNT ON

John Yamasaki, Director of Operations – American Film & Machinery, has dedicated his time with the shrink sleeve label industry since 1975. Now as the head of a team of experts in this dynamic sector of the labeling industry, he is supported by two of the largest converting plants – one with 7 rotogravure presses and up to 9-color stations and compatible converting equipment, and another plant with an 8-color 32" central impression flexo press.

QUALITY IS IN THE DETAILS

In addition to our proven experience, our quality control procedures ensure that the product you receive will run on your equipment without issue. Uniquely positioned as a labeling equipment provider as well as a film supplier, we understand both ends of the production spectrum and assume accountability for the entire labeling application.

AFM – headquartered in Corona, California – is a single source supplier of all of your Shrink Sleeve Labeling needs.

AFM is committed to keeping your production rolling and eliminating down time.

THE RIGHT SOLUTION

Quality products. Wide variety. Proven experience. Your benefits go on and on. When it comes to shrink labeling consumables, rely on American Film & Machinery to provide the right solution to your product labeling and tamper banding needs. SHRINK SLEEVE LABELS

MAKE YOUR PRODUCTS JUMP FROM THE SHELF

Shrink sleeves are an ideal solution for marketing your products to make them stand out on the shelf. Shrink sleeve labels cover your container from top to bottom and can be designed with 360 degrees of full color graphics, text, and even unique finishes. With full reverse print capabilities, our shrink sleeves are the perfect solution for stimulating shelf appeal to your entire product line, even when using the same container for all of your products.

GET YOUR PRODUCT NOTICED, NO MATTER WHAT IT IS

We provide economical shrink label solutions to a wide variety of users who manufacture or co-pack beverages, foods, nutritional supplements, personal care items, pharmaceutical products, household chemicals and more. AFM provides users with a choice of film grades and materials that offer substantial savings in operational costs and increased production speeds.

TAMPER EVIDENT SHRINK BANDS

LOOK GOOD WHILE PROTECTING YOUR PRODUCTS

Tamper evident shrink bands are a fast and easy way to secure your containers and add value and protection to your products. Shrink bands are used in a variety of industries from personal care products, cosmetics, foods, and pharmaceuticals. Our shrink bands are available in a variety of colors and can include perforation for easy removal.

COST EFFECTIVE SECURITY

In addition to providing a secure way to protect your product, tamper evident shrink bands provide an attractive and clean appearance to your packaging. Security bands are also the most cost-effective choice for keeping your products safe and secure. AFM provides a variety of tamper evident shrink bands for virtually any application.

- Up to 9 colors on PVC, PET-G, PLA, OPS
- Opaque, clear, tinted, or printed graphics
- Lay flat sizes from 20mm – 400mm

- Order in-stock bands or request custom printing
- Available with vertical and horizontal perforations or pull tabs

PREFORM SHRINK BANDS

EASY APPLICATION

AFM tamper-evident preform shrink bands provide a safe and secure seal to virtually any shaped container. Preforms are pre-molded to the shape of your container with an added lip and skirt, securing the preform on your container prior to the shrink cycle.

SHELF READY APPEARANCE

AFM preforms are manually applied and are designed to shrink and seal in seconds to provide a shelf ready appearance to your products. Our preforms are an ideal solution for dairy containers, vegetable and fruit containers, deli meat trays, a variety of snack containers and more. We stock a wide variety of preforms in different sizes and shapes, or custom, so you can be sure we will have the preforms you need, or we can make a custom size to meet your applications needs.

- Made from PVC, PET-G
- Hundreds of in stock sizes
- Opaque, clear, tinted, or printed graphics available

- Optional perforation
- Custom sizes, shapes, or colors available
