*is Entry Level Automation™*

## We Offer Solutions for Productivity.

### Mini-Con R with Feed Table

#### Automated Bottle Labeling System:

- Automated system for applying labels to bottles and round containers for high productivity applications.
- Perfect for use in the pharmaceutical, medical, vitamin, cannabis, CBD, food, beverage and any application requiring highspeed labeling equipment.
- Feed Table is compatible with our Mini-Con R Wrap system Bottle Labeling system and our Mini-Con ALR Capture and Spin Bottle Labeler with printing capabilities.
- Top plate and product guides are all stainless steel and the feed table has adjustable speed controls to match the conveyor speed of the labeling machine
- Diameter of the Feed Table is 39.3 inches (1000mm) in diameter. Up to 100 bottles 2 inch in diameter can be placed onto the Feed Table at one time.
- Adjustable height legs allow the Tach-It Feed Table to match existing equipment and there are also casters for full portability.
- The Tach-It Feed Table can be integrated with existing Mini-Con R machines already in production.
- Further information on the Tach-It Feed Table and all Tach-It equipment can be found at [www.tach-it.com](http://www.tach-it.com)
